

EVAN THIELMAN

General Manager

Reveam

Evan Thielman has a diverse work experience background. In 2019, he worked as a Business Development Manager at Reveam, Inc. (formerly ScanTech Sciences), where he ensured regulatory compliance, conducted sales activities, and gathered customer information. Prior to that, he worked at iMED Medical Manufacturing Solutions from 2017 to 2019, serving as a Continuous Improvement Engineer and a Project Engineer. In these roles, he implemented Lean culture and Six Sigma principles, developed processes for data collection and reporting, managed supplier negotiations, and collaborated with engineering and production departments.

In 2016, he had a corporate supply chain internship at Moog Inc., where he focused on regulatory compliance documentation and cost reduction projects. He also had a short-term internship at Howden North America Inc. as a Custom Proposal Intern, where he developed process flow diagrams and implemented standard work practices. Prior to his professional career, Evan worked as a Community Assistant/Leasing Agent at American Campus Communities and served as a Coach-Mentor at the University at Buffalo.

Mr. Thielman completed his Bachelor of Science (BS) degree in Industrial Engineering from the University at Buffalo School of Engineering and Applied Sciences. He attended the university from 2012 to 2016. In addition to his formal education, Evan also obtained certifications in FSPCA Preventive Controls for Human Food from the Food Safety Preventive Controls Alliance (FSPCA) in September 2020, and Introduction to Foreign Supplier Verification Programs from Registrar Corp in June 2020.
